

Planning your own vacation

Appetizer: Would You Rather take **route A, B, or C** from Los Angeles, CA to South Lake Tahoe, CA? Whichever option you choose, justify your reasoning using mathematics.

Challenge: My family (of 4) would love to go on a vacation. We have \$1,000 to spend and need to get away for no more than 3 days. Your goal is to plan the most epic vacation for us within those constraints and sell your idea to us using any form of media you choose. GO!

Destination: _____

Why?

How we are getting there: _____

What are we going to do?

How much will the trip cost? (Itemized Details)

**Your job is to sell this idea to me, my wife, and my two kids (6 and 4 years old).
Think. Create. Be awesome.**
